Australian Learning and Care (ALC)

CPCWHS1001

Prepare to work safely in the Construction industry

This face-to-face unit introduces the work health and safety knowledge needed before undertaking construction work. Training covers common construction hazards, basic risk controls, incident and emergency procedures, and the correct selection and fitting of common personal protective equipment (PPE).

Build essential construction safety knowledge before starting work on site

CPCWHS1001 Prepare to work safely in the construction industry, commonly known as White Card training, covers duty of care, safe work practices, hazard identification, basic risk management, safety signs and documents, reporting processes, incident and emergency responses, first aid access, fire safety equipment and common personal protective equipment. Completion of this unit does not replace the site-specific induction expected before work begins at a particular construction site.

RTO Entry Requirements:

- ✓ Participants must provide original evidence-of-identity documents totalling at least 100 points before training begins. The combined documents must show the participant's full name, photo, date of birth, signature and current residential address.
- ✓ A verified Unique Student Identifier (USI) is required before certification can be issued.
- ✓ The unit requires learners to follow simple safety instructions written in English, ask and answer questions, recognise numbers on safety signs and complete a basic form. Learners can discuss support needs with ALC before enrolment.
- ✓ Participants must complete the required practical demonstration, including selecting and correctly fitting common personal protective equipment.

Training Package Requirements:

- ✓ There is no prerequisite unit for CPCWHS1001.
- ✓ NSW participants must be at least 16 years old.
- ✓ Participants must attend face-to-face training and take part in practical demonstrations and oral and written assessment activities.

Job Outcomes

- Basic construction work health and safety knowledge.
- Construction hazard identification and reporting.
- Basic risk control awareness.
- Safety signs and reporting processes.
- Incident and emergency response awareness.
- Correct selection and fitting of common PPE.

Course Fee

Please contact support for fees – info@alo.edu.au

- ✓ Students accepted from any state nationwide.
- ✓ Rolling start dates.
- ✓ Enrolment Confirmation Issued the same day.
- ✓ Course delivery individualised to the student's needs.
- ✓ Students assigned to a real person to assist them in the day or evening.

Duration & Delivery

Please contact support for more info – info@alo.edu.au
